

Aryaka Day 0 Firewall/ Professional Services

Datasheet

Overview

Aryaka offers a range of networking and security services to help customers modernize, optimize, and transform their secure networking environment. Aryaka offers a suite of as-a service plans with Aryaka's SD-WAN, Unified SASE and Advanced Security.

Aryaka Day 0 Firewall/Professional Services is an add-on service to ensure an optimal onboarding experience for customers. The menu of professional services is designed to seamlessly integrate and optimize customers' network infrastructure, ensuring robust protection against evolving cyber threats while enabling secure access for your workforce, regardless of location or device.

To help customers with initial configuration, design and implementation of Aryaka security services, customers can choose from the menu of Day 0 Firewall/Professional Services.

Day 0 Firewall/Professional Services Description

Day 0 Firewall Services are Aryaka professional services (PS) to assist customers with initial configuration, design and implementation of Aryaka security services. The professional services are ordered as credit by unit of hour. These services include comprehensive guidance and hands-on assistance, and are designed to ensure a seamless onboarding experience, enabling customers to leverage Aryaka's security solutions effectively.

Professional Services Menu

Covers services for baseline security deployment services, migration services to Aryaka security, integration services, additional custom policies, CASB implementation, optimization service, and incident management.

Terms of Use of Day Firewall/Professional Services

- Add-on Service to Aryaka Unified SASE, Aryaka Advanced Security plans
- Billed on an hourly basis
- Can be applied to supported service types according to the menu of services.
- Must be pre-ordered prior to commencement of service delivery.
